↓Read the following text and then write the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions below.

## GROWING DESERTS

There are deserts all over the world. They can be found in Africa, China, South America, and North America. In some places, deserts are growing. This is a serious problem because deserts destroy farmland and ruin land where animals live. When people cannot grow food or find animals to eat, they have to leave their homes.

Sometimes, nature can cause deserts to spread. Wind can move sand away from deserts and onto useful land. When there is no rain for a long time, plants die and deserts grow. However, human can also cause deserts to grow. This is called desertification, and it
