- A. Good morning! B. I saw you yesterday.
C. So-so. D. I'm going to see a movie.

Read the following passage and blacken the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions.

The United Nations has proclaimed December 1st as World AIDS Day, December 3rd International Day of Disabled Persons, and December 5th as the International Volunteer Day. For the last few years, in early December, organizations that involve disabled people and various agencies have organized meetings and exchange programmes to mark the three days in Vietnam. This year UN agencies, the Hanoi Disabled People's Association and similar organizations will hold an exchange programme called " For the love of Life " on December 3rd at Thong Nhat park in Hanoi. The event is also in line with the UN General Assembly's upcoming approval of the " Convention on the Rights of Persons with Disabilities " and the response to the call of the UN Economic and Social Commission for Asia and the Pacific (UNESCAP). The program is for people such as disabled people, people living with HIV/ AIDS and enthusiastic volunteers who are actively supporting the disadvantaged **ones** as well as serving in other development areas. It is also aimed at **enhancing** the competence of the Hanoi Disabled People's Association and disabled people's organizations. Attending the meeting are leaders of the government, involving ministries, committees and branches, ambassadors, representatives from international and non-governmental organizations, disabled people, people living with HIV/ AIDS; national and international volunteers.

Read the following passage and blacken the letter A, B, C or D on your answer sheet to indicate the correct word or phrase that best completes each of the blanks.

We all want to live in a clean and green world and breathe pollution free air. For this kind of environment we desperately need a fossil fuel free world. Scientists are toiling hard to come up (39) _____ alternative fuels which can replace conventional fuels. One such study was presented at the 237th National Meeting of the American Chemical Society. This study throws interesting light on the first economical, eco-friendly process to (40) _____ algae oil into biodiesel fuel. The scientists are quite hopeful that one day America will become independent (41) _____ fossil fuels. Ben Wen is the (42) _____ researcher and vice president of United Environment and Energy LLC, Horseheads, N.Y. According to him, "This is the first economical way to produce biodiesel from algae oil. It costs (43) _____ than conventional processes because you would need a much smaller factory."

Question 39: A. to B. against C. with D. for

Question 40: A. adapt B. transform C. modify D. alter

Question 41: A. on B. from C. with D. of

Question 42: A. lead B. top C. summit D. peak

Question 43: A. much less B. little C. best D. few

Read the following passage and blacken the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the questions.

Culture is a word in common use with complex meanings, and is derived, like the term broadcasting, from the treatment and care of the soil and of what grows on it. It is directly related to cultivation and the adjectives cultural and cultured are part of the same verbal complex. A person of culture has identifiable **attributes**, among them a knowledge of and interest in the arts, literature, and music. Yet the word culture does not refer solely to such knowledge and interest nor, indeed, to education. At least from the 19th century onwards, under the influence of anthropologists and sociologists, the word culture has come to be used generally both in the singular and the plural (cultures) to refer to a whole way of life of people, including their customs, laws, conventions, and

values.

Distinctions have consequently been drawn between primitive and advanced culture and cultures, between elite and popular culture, between popular and mass culture, and most recently between national and global cultures. Distinctions have been drawn too between culture and civilization; the latter is a word derived not, like culture or agriculture, from the soil, but from the city. The two words are sometimes treated as synonymous. Yet this is misleading. While civilization and barbarism are pitted against each other in what seems to be a perpetual behavioural pattern, the use of the word culture has been strongly influenced by conceptions of evolution in the 19th century and of development in the 20th century. Cultures evolve or develop. They are not static. They have twists and turns. Styles change. So do fashions. There are cultural processes. What, for example, the word cultured means has changed substantially since the study of classical (that is, Greek and Roman) literature, philosophy, and history ceased in the 20th century to be central to school and university education. No single alternative focus emerged, although with computers has come electronic culture, affecting kinds of study, and most recently digital culture. As cultures express themselves in new forms not everything gets better or more civilized.

The multiplicity of meanings attached to the word made and will make it difficult to define. There is no single, unproblematic definition, although many attempts have been made to establish one. The only non-problematic definitions go back to agricultural meaning (for example, cereal culture or strawberry culture) and medical meaning (for example, bacterial culture or penicillin culture). Since in anthropology and sociology we also acknowledge culture clashes, culture shock, and counter-culture, the range of reference is extremely wide.

Question 44: According to the passage, the word culture_____.

- A. is related to the preparation and use of land for farming
- B. develops from Greek and Roman literature and history
- C. comes from a source that has not been identified
- D. derives from the same root as civilization does

Question 45: It is stated in paragraph 1 that a cultured person_____.

- A. has a job related to cultivation
- B. takes care of the soil and what grows on it
- C. has knowledge of arts, literature, and music
- D. does a job relevant to education

Question 46: It can be inferred from the passage that since the 20th century_____.

- A. schools and universities have not taught classical literature, philosophy, and history
